Cash Dispensing Unit Protection

Cash Dispensing Units (CDUs) deployed in financial institutions are being targeted by criminals for robbery and burglary. 3SI offers a range of flexible solutions for CDU design.
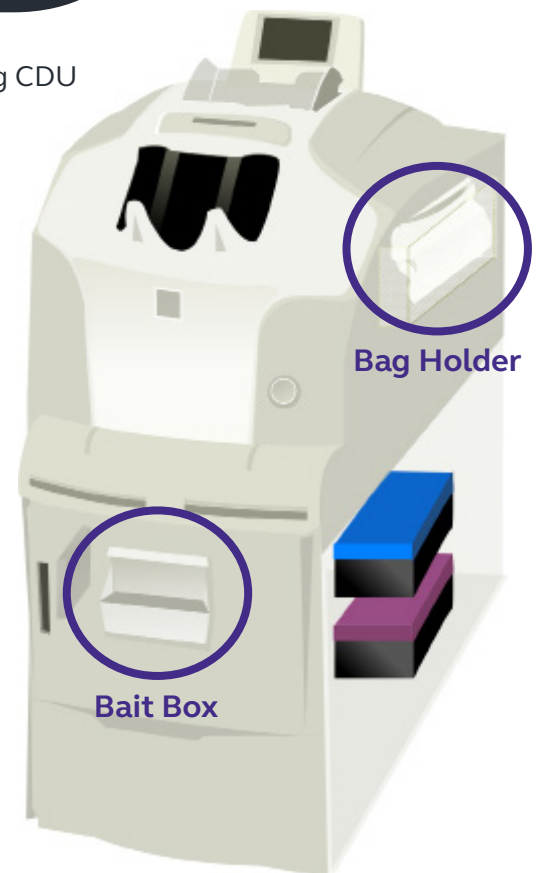

Bag Holder and Bait Box with Cash Tracker™

Small container and bag mounted to outside of CDU or a box matching CDU color affixed to front or top of unit

- Cash Tracker and additional cash placed inside
- During a robbery, teller uses hot keys to dispense allotted cash and includes the Cash Tracker with the money given to robber
- Triggers automatically and reports crime to police
- Robber leaves branch without knowing about the Tracker; local law enforcement coordinates pursuit and apprehension
- Customers and employees are kept safe
- **PROTECTS AGAINST: ROBBERY**

Cash Tracker Features & Benefits

- **Covert device** undetectable by criminals
- Fully **automatic and silent** operation
- **Secure website for live tracking**
- **Automatic response** from local law enforcement
- Increases chance of **apprehension & cash recovery**

Bag Holder

Bait Box

Security Where Criminals Least Expect it

For 50 years, 3SI has protected thousands of locations worldwide. Using tracking and cash tracing, our innovative solutions boast a **70+% success rate**, have helped **recover over $136 million** in stolen property, and have led to the arrest of thousands of dangerous criminals.

SecuriDab® LT Installed in Lid of Cash Cassette(s)

- Criminal breaks into machine when branch is closed
- SD LT goes to alarm mode and provides visual notification to security of attempted crime
- Criminal attempts to remove cash cassette
- SD LT confirms attack and indelibly stains and ruins cash
- Criminal leaves cash behind
- SD LT provides notification of activation to alarm panel
- Cash and CDU are protected
- **PROTECTS AGAINST: PULL OUT, BREAK-IN**

SecuriDab LT Features & Benefits

- **Integrates** with alarm panels
- **Compatible** with electronic locks
- **Simple installation**
- **Easy staff interface**
- **Minimal maintenance** required

ATM and Cassette Tracker™ Placed Inside CDU

ATM Tracker
- Criminal attempts a pull out attack
- Tracker detects crime, automatically activates, and reports crime to local law enforcement and 3SI
- Criminal removes machine without knowing about the Tracker; local law enforcement coordinates pursuit and apprehension
- Cash and CDU are recovered.
- **PROTECTS AGAINST: PULL OUT**

Cassette Tracker
- Add-on solution to the ATM Tracker system
- Criminal attempts to steal just the cash cassette, or rob the technician on service rounds
- Tracker detects crime, automatically activates with motion and detection away from the CDU Safezone, and reports crime to local law enforcement and 3SI
- Criminal takes cassette(s) without knowing about the Tracker; local law enforcement coordinates pursuit and apprehension
- Cassette, cash and CDU are recovered.
- **PROTECTS AGAINST: BREAK-IN, TECHNICIAN ATTACK**
