

Cash Tracker™ Financial

Protects and tracks cash in teller drawers, CRUs/CDUs, and vaults for recovery

Financial institutions of all kinds continue to be a target for robberies despite employing deterrents like guards and alarms. After a robbery, cash recovery is rare unless the institution deploys cash tracking devices like 3SI's Cash Tracker. Cash Tracker is a powerful tracking device that blends with other currencies. It automatically detects crime and silently starts updating its location to 3SI's advanced tracking system.

When the Crime Occurs

Once the tracker is activated, our own 24/7 security team and local law enforcement are instantly informed. Our advanced tracking system reports the location of the cash every step of the way while law enforcement pursues and apprehends the robbers.
