

PharmaTracker®

Protects and tracks pharmaceuticals for recovery

Robberies of pharmacies are on the rise, putting prescription drugs, employees and customers in danger. So pharmacies are increasingly turning to 3SI's PharmaTracker to successfully recover the drugs, protect staff and customers, and apprehend the thieves. PharmaTracker is a powerful tracking device that automatically detects a theft and silently starts updating its location to 3SI's advanced tracking system.

When the Crime Occurs

Once the tracker is activated, our own 24/7 security team and local law enforcement are instantly notified. Our advanced tracking system reports the location of the pharmaceuticals every step of the way while law enforcement pursues and apprehends the robbers.

Features

- Protects pharmaceuticals where they are stored
- Covert packaging blends with other similar products
- Triggers automatically with tilt or motion and silently reports to 3SI tracking website
- Location updates to secure website every 6 seconds via GPS, Cellular and Wi-Fi*
- Reliable performance ensured via daily battery check and semi-monthly health report with cellular connection
- Text and email notifications of activations and device status
- Stores location data if cellular signal is lost during tracking
- RF to pinpoint final device location
- DIY-friendly for installation and charging
- Simple inductive or USB charging
