

Phone Tracker™

Protects and tracks high-value smartphones for recovery

With the increasing portability and value of smartphones, stores carrying them are becoming more lucrative targets for robberies. More businesses are relying on tracking devices like 3SI's Phone Tracker to protect their high-value stock and employees. Phone Tracker is a small but powerful tracking device to be concealed on or inside any smartphone. In the event of a crime, it automatically triggers a silent alert and starts updating its location to 3SI's advanced tracking system.

When the Crime Occurs

Once the Tracker is activated, our own 24/7 security team and local law enforcement are instantly informed. Our advanced tracking system reports the smartphone's location every step of the way while law enforcement pursues and apprehends the robbers.

Features

- Protects phones where they are stored
- Covert packaging blends with other similar products
- Triggers automatically with continuous motion and silently reports to 3SI tracking website
- Location updates to secure website every 6 seconds via GPS, Cellular and Wi-Fi
- Reliable performance ensured via daily battery check and semi-monthly health report with a cellular connection
- Text and email notifications of activations and device status
- Stores location data if the cellular signal is lost during tracking
- RF to pinpoint final Tracker location
- DIY-friendly for installation and charging
- Simple inductive charging
