SafeResource™

Branch Safety…at Your Fingertips

SafeResource™ is a Mobile Safety System designed specifically for Credit Unions. The System protects employees during openings and closings, when they are most vulnerable. SafeResource also limits liability, reduces costs, and brings compliance to the Bank Protection Act and NCUA Requirements. The System is installed on employees' smartphones that they carry every day and is compatible with Android and iOS Devices.

Features

- Safer branch open and close
- Task list to help staff complete processes
- Ensures uniform staff procedures
- Full audit program provides branch analytics
- Automatically links to customer's or 3SI's Monitoring Center
- Significant cost savings through efficiency gains

- Robust, two-way Emergency Notification System (ENS) messages during an emergency
- Receive notifications via push, text and email
- Customizable notifications
- Survey Feature: use as support system to easily record staff responses on any topic
- Personal Timer offers safety while entering or exiting the location

Automated and Assisted Open and Close

During open/close, staff initiate the SafeResource Mobile App, which is linked to a Monitoring Center. It automatically provides the staff name, profile, location and notification that opening or closing is occurring. When needed, real-time audio, chat and video streaming is engaged with a tap on the screen, so staff are never alone in a vulnerable situation. Access to the App is password protected and each Device is set up according to each user's specific position at the branch. A panic code feature provides added safety by automatically notifying the center of an emergency situation.

How It Works

| Staff Arrives at Branch | App Opened, Process Begins | Trouble Occurs | Staff Activate Panic Alarm | Monitoring Center Notifies Police and Stays on Line with Staff |

Electronic Notification and Audit Reporting

The safe open or close of your branch is communicated automatically to each employee's smartphone and to the Monitoring Center by providing a notification. Each action is recorded for generating reports to meet regulatory requirements, improve staff scheduling and other efficiencies to ensure smooth operations at your credit union.

The SafeResource App is easily installed on any type of smartphone
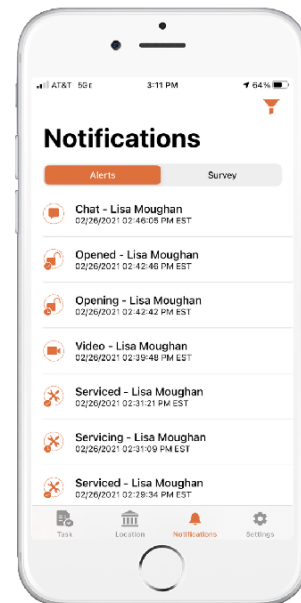

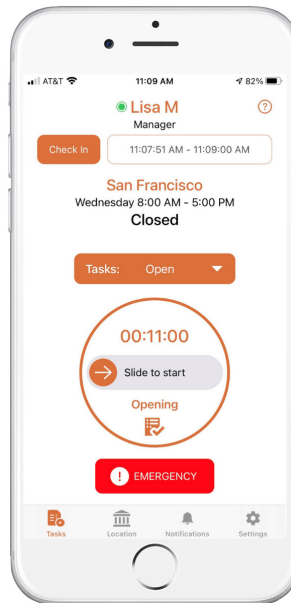

About 3SI

50 years of experience and specialized knowledge in the **Security field**

24/7 US-based support

Long-term relationships with the industry, built on **trust and satisfaction**

Partnered with over **9,500 law enforcement agencies**

Over **16,000 criminals apprehended** and **$140M in assets recovered**

Our solutions

Tracking uses multiple technologies to help police track crimes, recover stolen property and arrest criminals

Cash Tracing uses ink, smoke and dye to foil robberies, recover stolen cash and apprehend criminals

SaaS Safety Systems use APP technology to protect staff members against crime and provide detailed reporting to increase efficiency and reduce costs
