## A Mobile Safety System for Retailers

Technology that helps ordinary devices do extraordinary things

Security Systems

Whether you are a small shop owner, or a big-box Retail chain, opening and closing times are an intense part of your day. Criminals rely on the predictability of these everyday operational functions. With fewer staff onsite and large amounts of cash on hand, the safety of your employees and the profitability of your business are especially vulnerable.
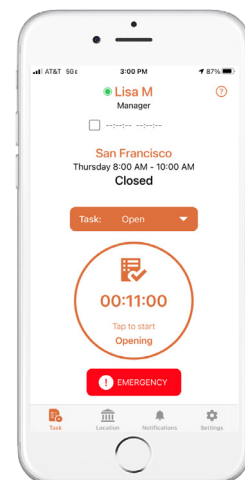

But now there is a way to protect your employees and establish procedures for openings and closings that leave as little to chance as possible, while delivering a performance advantage that can strengthen the front lines of your retail organization.

## SafeResource®... a Safety System for retail establishments

SafeResource is a mobile safety system comprising an App, monitoring technology supported by a 24/7 Monitoring Center, and audit/reporting of all recorded activities. The System can be easily installed and operated on any Android or iOS device and requires no additional hardware. Together, the systems improve store safety, reduce costs, and provide comprehensive reporting and documentation of security protocols.

## Real-time automated openings and closings

- Staff can safely perform **automated and assisted** store Openings and Closings from their smartphones
- **Access assisted video, call or chat:** In emergency situations, System contacts 24/7 Monitoring Center for immediate support and monitoring
- Center receives visual and **audible indicators of trouble**
- Trouble notifications can be sent **automatically and covertly** to keep staff safe
- **Staff are notified** of store activity via App notifications… confirms that store is safely opened and or closed. Can also be used for emergency notification

**SafeResource® App Works on Android and iOS Devices**

## One App, One Smartphone, One Safe Store...

Everything is recorded and stored on a secured central server controlled by the establishment, to meet chain of custody requirements for legal proceedings. Nothing is ever stored on the employee's smartphone.
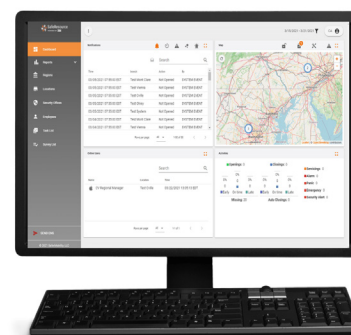

- App **records all activity** and saves all information for easy future access

- **Task List** Function can be used to ensure all Open and Close tasks are performed

- **App is secure:** password protected and tied directly to the user's location

- **Create a Survey:** Support COVID-19 symptom screening with a daily Health Check, or record staff responses on any topic

- Customizable notifications by location and delivery method

**Panic Alarm & Live Chat to Monitoring Center**

## Reduces Costs

- Store personnel **costs are reduced** - Openings and closings require fewer employees. Now you can use staff when you need them, during peak business hours

- Easy and reliable access to records **saves time in compiling reports**

- Using App task list, Open/Close activities can be completed **quickly and consistently saving you time and money**

- Helps bring compliance to OSHA regulations, **eliminating the costs associated with paying regulatory fine**

**SafeResource Monitoring Technology**

## Why SafeResource?

Developed exclusively for Retail locations, SafeResource is a powerful and economical option that can be used by retailers of any size. Whether you have one store or thousands of locations, your security function will be improved, your stores and staff will be safer, and reporting and audits will be far more accurate and efficient. Contact 3SI today for a FREE DEMO of SafeResource.

## 3SI Security Systems

In business since 1971, 3SI provides Security Solutions to the Financial, Retail and Law Enforcement Markets. The company was one of the first providers of Smoke and Dye Technology for cash protection, and consistent innovation over more than four decades has resulted in advanced solutions in a wide range of designs that include GPS Tracking and Tracing Technologies. 3SI's Solutions protect thousands of customers worldwide.

3SI's Mission is to help create a Safer World with innovative solutions and superior services that support the apprehension of criminals and the recovery of stolen goods.
